

Environmental Protection Agency

Ecology and Oceanography of Harmful Algal Blooms Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	EPA-G2008-STAR-A1
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Oct 04, 2007 Please review the full announcement, including Section IV, for additional information on submission methods and due dates.
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Environment
Expected Number of Awards:	11
Estimated Total Program Funding:	\$10,000,000
CFDA Number:	66.509 -- Science To Achieve Results (STAR) Research Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

County governments
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Native American tribal governments (Federally recognized)
State governments
Private institutions of higher education
Public and State controlled institutions of higher education
City or township governments
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
See Section 3 of the announcement for additional eligibility information.

Description

The U.S. Environmental Protection Agency (EPA), as part of its Science to Achieve Results (STAR) program, and its interagency partners, the National Oceanographic and Atmospheric Administration (NOAA) and the National Aeronautics and Space Administration (NASA), are seeking applications proposing targeted research projects of up to 3 years duration and multi-disciplinary regional studies for 3 to 5 years duration for the Ecology and Oceanography of Harmful Algal Blooms (ECOHAB) program. This NOAA-led program provides support for research on algal species whose populations may cause or result in deleterious effects on ecosystems and human health. Studies of the causes of such blooms, their detection, effects, mitigation, and control in U.S. coastal waters (including estuaries and Great Lakes) are solicited. This document details the requirements for applications for research support that will be considered by this Federal research partnership. All research support is dependent upon individual Agency appropriations.
